Why did you join POWER and what do you look forward to doing with the Women's Initiative group? I joined POWER because I feel compelled to help God's children succeed in life, especially if they are not growing up in a supportive family. I am on the Alpha Center board and need to continue my efforts there, but would like to be in the loop with POWER in case I can be helpful here and there. I hope to have more time to help out as my kids get older, but for now I can at least start familiarizing myself with the programs.
